HAMMOCKS and SWINGING CHAIRS.

We have a drink "of ice water" for YOU.

## It's Your Kidneys

Don't Mistake the Cause of Your Troubles. A Lexington Citizen Shows How to Cure Them

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Lexington people testify to permanent cures.

J. Withrow, Cor. Main and Washington Sts., Lexington, Va., says: "For two years off and on I was greatly troubled with backache accompanied by sharp pains through my kidneys whenever I stooped or lifted. I noticed Doan's Kidney Pills highly advertised to cure such complaints, and thinking they might help me, I procured them at Gorrell's drug store. After using them a few days the aches and pains lessened, and by the time I had finished the contents of the box, I was cured. Doan's Kidney Pills did more for me than any other remedy I ever used and I gladly give them my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

## Cures Blood and Skin Diseases

**Eczema, Greatest Blood Purifier Free**

If your blood is impure, thin, diseased, hot or full of humors, if you have blood poison, cancer, carbuncles, eating sores, scrofula, eczema, itching, rising and bumps, swellings or suppurating sores, scabby, pimply skin, ulcers, bone pains, catarrh, rheumatism, or any blood or skin disease, take Botanic Blood Balm (B. B. B.) Soon all sores heal, aches and pains stop, and the blood is made pure and rich. Druggists carry by express \$1 per large bottle. Sample free by writing Blood Balm Co., Atlanta, Ga. B. B. B. is especially adapted for chronic, deep-seated cases of blood or skin diseases, as it cures after all else fails. Nov. 20 07-1-yr

It would be hard to make many people believe that the wood in the pencil or penholder they daily use has served for 50 or perhaps 100 years as part of a rail fence, but to a great extent this is true. When split open the most aged and dry-rot eaten cedar rail divulges an interior of as white and well seasoned wood as can possibly be procured by long and careful seasoning.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Third, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 45 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a falling appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Gorrell's drug store.

**Free Candy.**

A gentleman connected with a large confectionery establishment in the heart of the city finds the free candy luncheon the greatest nuisance about the place.

"Half a dozen young women will come in together to buy candy, and every one of the lot will make a tour around the candy counter, sampling every variety until by the time they buy the candy has eaten from half a pound to a pound of the choicest candy in the store. Why they should make free with candies and other delicacies I never could understand. When they go to a ribbon counter they do not take the clerk's scissors and snip off a piece of ribbon from every bolt, nor when they are at the notion counter do they pick up and carry away the little articles of a hundred kinds that are sold there, but the idea that sweets are free seems thoroughly to pervade the young female mind; hence in many candy stores all the candy boxes and loose candies are placed under glass."—St. Louis Globe-Democrat.

An auto-car screw-driver has been designed for the purpose of making it possible for railroads to use screw spikes in track construction, a method of spiking rails hitherto uneconomical because of the labor and expense of boring holes and setting the screws by hand.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Restorative, to mail you a copy. Dr. Shoop's Restorative of course can't give you a cure in a day or two, but it will do enough in 45 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a falling appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Gorrell's drug store.

In 1875 there were 71,000 acres under hop cultivation in Kent county, England, which has been reduced to 44,938, and during the past year 202,394 hundredweight of hops were imported, of which America sent 126,122 hundredweight.

To stop any pain, anywhere in 30 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women etc., get instant help. 20 Tablets 25 cts. Sold by Gorrell's Drug store.

The total number of publications handled by the Roumania post offices in 1906 was 131,218,322. One newspaper sent out during the year 30,600,000 copies. No other daily newspaper sent out more than 6,000,000.

Mrs. S. L. Bowen of Fort Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." Foley's Kidney Remedy works wonders where others are a total failure.

The industry of flintmaking still thrives in Brandon, England. The flints are sent to Africa and other countries where the guns of 100 years ago are still in active service.

If you fear hot weather and bad bowels, Dr. Fahney's Teething Syrup is your friend and the baby's comfort.

It is reported that in the mountain regions of the Sierra Nevada, in the Department of Magdalena, extensive forests of rubber have been discovered.

Have you used Dr. Fahney's Teething Syrup? It is the whole thing. Babies like it. Cures all stomach troubles.

The Nile contains a greater variety of fish than any other body of water.

## Gems In Verse

### THE FAIRY FIDDLER.

THIS I go fiddling, fiddling,  
By weedy ways forlorn;  
I make the blackbird's music  
Ere in his breast 'tis born;  
The sleeping larks I waken  
Twixt the midnight and the morn.

NO man alive has seen me,  
But women hear me play  
Sometimes at the door or window,  
Fiddling the souls away—  
The child's soul and the colic's,  
Out of the covering clay.

NONE of my fairy kinsmen  
Make music with me now.  
Alone the paths I wander  
Or ride the whitethorn bough;  
But the wild swans they know me,  
And the horse that draws the plow.

—Nora Hopper.

### THE SAILFISH.

It Takes Great Skill to Land Him With Reel and Rod.

The small number of sailfish annually taken in Atlantic waters is partially explained by the uncertainties and difficulties to be encountered in locating their presence as well as the great skill, experience and endurance required in handling them with rod and reel.

Although infrequently seen near the Florida keys, they seldom leave the vicinity of the warm Gulf stream, whose waters approach within five miles of Palm Beach.

One usually finds them on warm, sunny days, swimming with their great dorsal fins slightly out of water, and immediately a school is discovered all power must be used to force ahead of them, cross their path a hundred yards in advance, then stop and allow the boat to drift slowly, when a lively fresh bait should be cast.

While they often strike at cut bait or a spoon in trolling, they are seldom well hooked, owing to the peculiar character of their jaws. As a rule they bite very quietly and must be given thirty to forty feet of line before striking, as their mouths are small, hard and bony, not unlike the tarpon in their internal structure, and can rarely be captured unless the bait is well swallowed.

When hooked they create a terrific commotion, first endeavoring to peel the most powerful reels in their rushes, then making perpendicular leaps in rapid succession, clearing the waves by many feet, trying desperately to shake out the hook and finally making long side dashes just under the water, somewhat like a kingfish.

These movements are occasionally interrupted by low, rapid flights just above the water, when their immense sail seems to play its part in aerial navigation.—Forest and Stream.

**Now She Feels Safer.**

A certain Bronx housewife has been terribly worried of late. She has been in the midst of a palm reading fest, and all her palmist friends have told her of dire things that are going to happen to her in the future. She finally got a book on the subject and began to study it carefully. She was really unhappy about the situation until the other day. Now she declares everything is all right.

"You see, I employed a new cook," she said, "and there's a lot about cooking she didn't know. I looked into her palm and found her head line beautifully developed. When I discovered her cooking turnips with the jackets on I knew there was nothing in palmistry or she would have had no head line at all."—New York Globe.

## THE DOGWATCH.

No One Seems to Know For Certain How It Got That Name.

The simplest facts, quite unchallenged and taken for granted, are often the hardest subjects for investigation. "Did you ever ask a sailor or a know-it-all why the dogwatch is so called?" queries a writer in the New York Sun who has himself made the experiment.

The chances are that the answer will be, "Why, the dogwatch is two short spells from 4 to 6 and from 6 to 8 o'clock in the evening to break the regular four hour watches, so that the same men will not have to stand watch during the same hours every day."

Simple and lucid. But why "dog"? In a hunt after an explanation the first question was put to the officers' mess of a big battleship. Not one, from the executive officer of a quarter of a century's service to the ensign with his first stripe, could answer.

A boat's crew from the same ship failed to throw any light on the subject, although a gunner's mate allowed that "it might be they once had dogs on ship and they was let loose when this watch was on."

An officer of an Atlantic liner said he never had heard so silly a question.

"Why, the dogwatch is the dogwatch," he explained. "There's no why or wherefore about it. It's always been the dogwatch, and it always will be."

Having had the matter so airily disposed of by this officer, inquiry was pushed to the East river, where may be found men who have been going down to the sea in real ships for many years. The pursuit of the "dog" was useless.

"Say," said a Harlem boatman, "what's the matter with trying 'Fighting Bob'? If he can't tell you the great American navy will lose caste."

So up to Rear Admiral Evans went the query. And from Fort Monroe came the answer:

U. S. S. Connecticut, Sept. 2  
Dear Sir—I am unable to give you the information you ask about the dogwatch. Of course we all know why the watch is made two hours, but no one seems to know why the name dog was applied. Yours very truly,  
R. D. EVANS.

At last a public library was resorted to. The dictionaries were merely provoking. "Five Thousand Facts and Fancies" was the only book found that threw light on the matter. Its explanation reads:

"Dogwatch, a corruption of dog-dog watch. The dogwatches were introduced to prevent the same men from always keeping watch the same hours of the day; hence on these occasions the sailors are said to do the routine, or to be doing dog-dog watch."

It may be added that Murray's great English dictionary gives a quotation introducing the term dog-watch from a book published in 1700, but gives no theory of the origin of the term.

**The Gown That Shows the Hose**

The Directorate gown, which is being worn commonly by women in Paris and other European centers of fashion, has made its appearance in New York, Chicago and several other American cities. That the Directorate style of wearing apparel for women is calculated to cause a great stir is perfectly apparent from a description of the dress.

The gown fits the body as tightly as a glove, showing every line of the figure. But its most striking and original features lies in the arrangement of the skirt. This is split from the waist line and held together with buttons as far as the knee. From the knee down there is delight for the rubberneck, for in that space the skirt is open and a dainty limb encased in silken hose is in plain view. With every step, the shapely limb, the pretty hose and the dainty shoe are all there to charm the eye.

Verily, with the Directorate gown Paris has eclipsed all former performances in the way of originating garments for the fair sex.

The women who may don the Directorate with impunity is she who hits the happy medium between the kildee and the Steinway Grand Piano architecture. It cannot be worn by all the dear girls.—Winchester Star.

The cry already comes borne on the winds from the West for men and teams to gather the Kansas wheat harvest, which promises to be ready for the cutting during the last half of June and the first weeks of July.

## THE CIRCUIT RIDER

President Roosevelt Pays Tribute to Methodists

In an address last week in Washington before the General Conference of the Methodist Episcopal Church, President Roosevelt delivered an address on "Good Citizenship," in which he paid a notable tribute to the pioneer Methodist preachers who braved dangers and endured hardships for the sake of preaching the Gospel.

Before beginning his address the President extended his best wishes to the authorities in their purpose to plant in Washington City a great American University that shall fulfill the dream of the greatest and first of American Presidents—George Washington. The President said, in part:

"It is a pleasure to be with you today and to bid you welcome on behalf of the nation, here in the capital of the nation. Important though the Methodist Church is in many lands, there is none in which it has played so great and peculiar a part as here in the United States. Its history is indissolubly interwoven with the history of our country for the six score years since the constitutional convention made us really a nation."

"Methodism in America entered on its period of rapid growth just about the time of Washington's first presidency. Its essential democracy, its fiery and restless energy of spirit, and the wide play that it gave to individual initiative, all tended to make it peculiarly congenial to a hardy and virile folk, democratic to the core, prizing individual independence above all earthly possessions, and engaged in the rough and stern work of conquering a continent. Methodism spread even among the old communities and the long-settled districts of the Atlantic tidewater; but its phenomenal growth was from these regions westward. The whole country is under a debt of gratitude to the Methodist circuit riders, whose movement westward kept pace with the movement of the frontier, who shared all the hardships in the life of the frontiersman, while at the same time ministering to that frontiersman's spiritual needs, and seeing that his pressing material cares and the hard and grinding poverty of his life did not wholly extinguish the divine fire within his soul."

"Such was your work in the past, and your work in the present is as great; for the need and opportunity for service wide as the field of national interest widens. It is not true in this country that the poor have grown poorer; but it is true that in many sections, and particularly in our large cities, the rich have grown so very much richer as to widen the gulf between the man of very large means and the man who makes each day's livelihood by that day's work; and those who with sincerity, efficiency and deep conviction, band together for mutual help, are those who can do most to keep the gulf from becoming too wide. True religion, through church organizations, in all the field of kindred endeavor, can manifest itself as effectively in the crowded and complex life of today as in the pioneer yesterday, and the souls of men need the light now, and strive blindly toward it as they needed it and strove toward it in the vanished past. It is your task to do the work of the Lord on the farm and in the mine, in the counting room and the factory, in the car shops and beside the blazing furnaces, just as it was the task of your spiritual forebears to wrestle for the souls of the men and women who dwelt on the stump-dotted clearings in the wilderness."

## CONDENSED NEWS

Brief Items of Interest for the Busy Reader

London uses 50,000 tons of sugar annually for jam making.

In Australia there are nearly 247,000 more men than women.

For every ton of gold in circulation there are fifteen tons of silver.

Chicago is to be the storm center of organized labor's political campaign, according to plans now made.

Male servants in the Argentine capital get 66 cents to \$2.20 a day and female help from 40 cents to \$1.10.

Atlanta, Ga., suffered a \$1,250,000 loss by fire recently. The best part of two business blocks were destroyed.

In the United States last year 103,000,000 railway ties were used, which denuded 600,000 acres of forest to supply.

Million free rides are given on Cleveland, Ohio, street cars to celebrate Mayor Johnson's victory for a 3-cent car fare.

Italy's imports from this country are not quite \$67,000,000 a year, and ours from that country are only \$36,000,000.

According to the California State Board of Health opium smoking is on the increase, especially in San Francisco's "smart set."

According to the report of the geological survey of British India the production of coal in that country in 1907 was 9,783,250 tons.

Belgium is now importing yearly about \$1,500,000 worth of automobiles, motor-cycles and bicycles. These imports have quadrupled in four years.

It is said in Richmond that the tour delegates at large to the Denver convention will be Governor Swanson, Senators Martin and Daniel and Maj. J. Hoge Tyler.

While taking up the floor of an empty house at Patrocinia, Brazil, a poor woman found imbedded in the earth beneath a diamond of the first water and perfect shape, weighing 220 karats. It is the second largest diamond ever found in South America.

J. T. Deal has purchased the Virginia State Building at the Jamestown Exposition for \$13,000, including land and building. This is the highest price paid for any of the State buildings. Eleven of the State structures remain to be sold.

According to a German physician, buttermilk is a blessing to all persons suffering from gout. It says that it gently stimulates all the excretories, liver, skin and kidneys. It also tones the stomach and furnishes it the material from which to make rich, red healthy blood.

President Edwin A. Alderman, of the University of Virginia, left New York on Saturday for a brief trip abroad. He will sail on the Minnehaha, of the Atlantic Transport Line, going direct to London, and will spend a few weeks in the enjoyment of country life in England and Scotland. He expects to return home late in July.

Farmville Herald: Let a young man at twenty years of age put twenty dollars at interest, instead of expending it for tobacco. Then at the beginning of the next year repeat it, and include also the principal and interest of the preceding year, and thus continue to do from year to year, until he shall have reached the age of seventy; the amount he would realize would exceed thirty thousand dollars. How many of our young men will try it?

An epidemic of typhoid fever in Rockwell City, Iowa, which had its origin in the food cooked for a Methodist Church social has resulted in its fifth fatality. Thirty more members of the church, including the pastor, Rev. M. E. Ready, are
